1. Introduction
2. Problem
3. Importance of Problem
4. Analysis Overview
5. Dashboard
6. Key Findings
7. Conclusion and Recommendations

## Two modes of sales : Online and Offline

Count of Orders

Fiscal years: 2002, 2003, 2004

Countries: AU, CA, DE, GB, FR, UK, US

Total Revenue

Fiscal years: 2002, 2003, 2004

Countries: AU, CA, DE, GB, FR, UK, US

# Introduction

## Offline Sales

## Online Sales

-In some markets only very recently offline sales began

- While in others like in North America it has been prominent sales channel

-Initial method of business expansion

- Cost efficient strategy that allows for brand building in new market

Offline Sales

Online Sales

- In FY 2004, revenue generated by online sales constitute less than 25% of Total revenue in North American markets
  - Online: \$7.26M Offline: \$ 35.83M
- Exception: Australia with 70% Total revenue from online sales

# Online sales are currently underperforming in comparison to our offline sales channels.

Why focus on Online sales?

- E-commerce in booming → Future proofing the Business
- Cost-efficient , 24/7 Accessibility, Market test, Build brand
- Changing Consumer Behavior

How to improve Online sales?

- Use customer demographics based insights in Sales & Marketing decisions

- Data Source: Internal Adventure Works (FY 2002- FY 2004)
- Type of Sale: Online & Offline
- Measured KPIs:
  - Total Online Revenue(USD)
  - Count of Orders
  - Count of Customers
  - Sales type by Country
- Focus on Online Customer Demographics :
  - Age Groups (20-30, 30-40 etc)- Average age of Customer, Highest revenue generating group
  - Gender- Count (%) of Customers by Gender
  - Frequency of purchase by Country
